Describe incident in detail as described by victim/witness (use additional paper if necessary)

A teacher brought a child, and Liam Crowley, Kindergartner, in to talk with Leigh White. The teacher did not see the whole incident, but did see the end of the conflict. When talking with both boys involved, the child said that Liam came up to him and said, "Do you want to fight?" Then he proceeded to hit him and kick him. The other child pushed Liam to the ground and hit him once he was on the ground accidentally falling on him in the process. Liam said, that he did not sleep well last night because his sister kept him up and that he did go up to the other child and ask if he wanted to fight and he hit and punched him at him. Liam said that the other did push him down, hit him, and fall on him. Neither boy was crying or could point out a place where they were hurt. No medical treatment was necessary. As Leigh White talked with the boys, Will Crowley picked up Liam. Leigh White talked with Will Crowley and told him that Liam had an incident and I was in the process of talking with both boys and trying to figure out exactly what happened. I told him that both boys told me the same thing. I also mentioned that Liam said he was tired and that he had told me that he didn't get enough sleep last night because his sister kept him up.

What action was taken by employee(s) -- including first aid given?

Leigh White talked to all the kids involved and also talked with the other child's parents and Liam Crowley's fathers at pick up. No first aid was necessary.
